Tori Kappo Kicho

Torikappo Kicho mainly serves branded chicken raised in the local open field, riding on its strength of owning a poultry processing plant as well as affiliating with poultry farms in Miyazaki and Kagoshima.

Cooked by our skilled Japanese chef, Kicho has distinctive features, including the fragrant aroma of the charcoal grill, the exquisite texture created in the process, and the perfect rare roasting that only the freshest chicken can achieve.

A rich variety of ingredients, seasonal produce, and the rarest parts of chicken further enhance the flavor when cooked with cage-free chicken.

We also offer sake that we exclusively serve owing to our strong ties with historic sake breweries throughout Japan.

Enjoy what it does in combination with the chicken.
